EXPOSITION DE LA MAQUETTE DU DOMAINE

THE PORTES DU SOLEIL IS FIRST AND FOREMOST THE STORY OF A GROUP OF FRIENDS WHO, OVER 60 YEARS AGO, HAD A DREAM, THE DREAM OF A HUGE FRANCO SWISS SKI AREA LINKED BY SKI LIFTS.

Vos prochaines vacances à **MORGINS**

This dream came true in 1964: a giant 3m by 3m 1:10,000 scale model of the future cross-border domain was presented to the general public at the Lausanne World Exhibition.

a link with the French resort of Avoriaz. At the same time, Avoriaz embarked on the construction of a ski lift, which was completed at the end of the summer of 1968.

### For the record

The project presented in Lausanne in 1964 was initially entitled the "Haute Route des Familles", in reference to the famous Chamonix-Zermatt crossing, in reference to the famous Chamonix-Zermatt crossing.

### The two sides are connected!

The opening of Chavanette has opened up new possibilities for skiers: a magnificent route that provides access to the famous "Mur Suisse", one of the steepest runs in the world. Subsequently, links developed. The original vision is gradually becoming a tangible reality. Les Portes du Soleil, a group of 12 resorts (7 in France and 5 in Switzerland) offering skiers a huge cross-border Alpine area with endless possibilities: 600km of skiing accessible via 208 lifts.

« The French grimaced and my proposal was timidly received. Jean suggested that we think about it some more, but we had to get out of here with a definitive name! Unsurprisingly, there were no other proposals and the name Portes du Soleil (named after the pass at Les Crosets) was adopted. »

GUSTAVE TROMBERT

### Development of the domaine

In the years that followed, the project took shape with the gradual development of cross-border links.

Always a visionary, the Portes du Soleil was also quick to understand that the serious mountain biking segment was going to become a major

The first was installed in 1956. Pierre Béteille, a Pyrenean adopted by Châtel, built the first cross-border lift: he extended the Coq lift with the Corbeau lift. The Super-Châtel sector is now linked to Morgins. By staying on the slopes, skiers could now move from one country to another without leaving their skis.

growth area for summer tourism. Indeed, for some mountain bikers, the pleasure comes exclusively from the downhill. In 1995, Le Pléney opened its gondola lift to mountain bikers and developed a dedicated track. Avoriaz, Châtel, Champéry, Les Crosets, Les Gets, Morgins and Morzine offer world-class Bikeparks.

### Skiing without borders is born!

The Champéry-Avoriaz link via Chavanette confirmed the vision of the pioneers. In 1968, Téléchampéry built a fixed-grip double chairlift at Chavanette to provide

The UCI (International Cycling Union) has confirmed the region's appeal by organising the Mountain Bike World Championships in Les Gets in 2004 and 2023, and in Champéry in 2011. The Swiss resort will host them again in 2025!

# A PARADISE FOR MOUNTAIN BIKERS!

## In numbers...

- 600 km of signposted trails
- 80 mountain bike trails
- 22 ski lift

One of the most sought-after mountain biking areas, Les Portes du Soleil is Europe's largest mountain biking playground. Here mountain bikers are spoilt for choice, with pine forests, wooded trails, winding single tracks and alpine meadows. It's ideal for both experienced mountain bikers and beginners, adults and children alike, who can practise every discipline on the trails, as well as in the many fun zones.

And thanks to a single pass and ski lifts that allow you to cross the Franco-Swiss border, **there's an international mountain biking experience waiting for you...** with the promise of **incredible scenery** on every outing!

## The largest cross-border e-bike network - Try it and you'll love it!

A pioneer in electric mountain biking, Portes du Soleil has been using electrically-assisted bikes since 2014! The ski area now offers routes specifically signposted for this type of cycling. The 12 resorts are working together to offer suitable routes without fear of the uneven terrain. There are also **Bosch recharging points** (free of charge) dotted around the resort, making it easy for touring hikers to recharge their batteries. This network of linked trails and all the associated infrastructure and services make the Portes du Soleil the largest cross-border e-bike network.

## In numbers...

- 38 electric mountain bike trails
- 34 Bosch recharging points
- 🔌 **BOSCH ePowered**
- 3 solar charging points

## High-profile international events

The Portes du Soleil is gearing up for an exceptional year in 2024 with a sporting calendar packed with events. The resort will once again be pulsating to the rhythm of what promises to be the biggest mountain biking event of the season!

The world's best downhill mountain bikers will be competing in the **XCC, XCO & DH World Cup events in Les Gets** from Thursday 04 to Sunday 07 July, followed by the **UEC Mountain Bike Downhill European Championships in Champéry** from Friday 09 to Sunday 11 August..

DESTINATION

# VTTAE SAFARI IN THE PORTES DU SOLEIL

The Portes du Soleil Mountain Bike Tour is an 80-kilometre ebike tour (available in Enduro format for the more sporty) that offers a different way of discovering the villages. Departing from one of the 12 French-Swiss resorts in the Portes du Soleil area (your choice), the route has been designed to resemble a safari. As you pass from one village to the next - from Les Gets to Morzine, via Avoriaz, Champéry, Châtel and Montriond - you'll discover all the points of interest along the way: hundred-year-old **mountain chalets**, exceptional flora and fauna, enchanting waterfalls... and all of this, set against exceptional panoramas: the majestic **Dents du Midi** and **Lake Geneva!**

A dozen or so lifts along the Alpine route, equipped to transport mountain bikes, will take you over the most difficult climbs and propel you up **7,000 metres** of ascent and descent and some **1,000 metres** of ascent and descent, giving this tour its enduro character. For the more energetic, there is a variant at the top of Châtel that takes in Torgon on the Swiss side.

**Get on board now!**

# EXPLORE THE ADVENTURE STARTS HERE!

## 1 9.00am Départure of Châtel

After a coffee on the terrace, head for the Super Châtel gondola (in the centre of the village) when it opens at 9.00am. It's going to be a long day!

Thanks to our Portes du Soleil lift pass, we'll have access to all the open lifts in the area.

After just a few pedal strokes, we crossed the Swiss border. A path takes us to Lac de Conche, then the Corbeau sector, with its sumptuous landscapes and cows welcoming us to Swiss soil.

## 3 11.15am Champéry cable car

The cable car takes us back up to the heights. We passed a number of riders who had come to take advantage of the bike park's slopes, including the World Cup track in Champéry. After taking the Mossettes chairlift to Les Crosets, we descend towards Lac Vert. A crossing on a beautiful single track reserved for bikes (pedestrians have another dedicated path) puts our riding skills to the test - just what we like! We then return to the French side of the domain.

4

## 5 12.30pm Goat village, Montriond - Les Lindarets

At Les Lindarets, it's the free-roaming goats that do the driving. We make our way down to Lac de Montriond along the road, which is closed to cars (A short break is in order!). We take a seat in one of the restaurants overlooking the lake and enjoy a tasty meal. Many holidaymakers take advantage of the lake to cool off and bask in the sun.

## 2 9.40am Arrival at Lac de Morgins

We skirt the shores of Lac de Morgins before arriving in the centre of the village of the same name. From here, we take the Morgins cable car, a new, modern and fast facility.

After a short, sweaty climb, we arrive at the Route du Lait. A fabulous sight awaits us: the Dents du Midi face us in all their majesty.

## 6 1.30pm Parc des Dérêches, Morzine

After a well-deserved break, we set off again in the direction of Morzine. We don't have long to wait, the day's not over yet and the bike park trails are waiting for us! We follow the banks of the Dranse and cross the Parc des Dérêches. This is the place to be for all the family. There's a whole host of activities on offer, including horse riding, archery and a fitness trail... Then we arrive in the centre of Morzine, where mountain biking reigns supreme. The streets are teeming with riders on their dusty bikes. We then head for the Pléney gondola to reach Les Gets.

## 3.40 Bikepark de Châtel

The day is drawing to a close, but we need to keep our strength up for the Panoramique! This blue track in the Châtel bike park puts us to the test one last time, with its banked bends and a few tables. The more daring tried a few jumps. Arriving at Plaine Dranse, we admired the various trails in the bike park. A few more efforts to climb towards Lac du Queyset, then a final descent along the Sous le Va trail takes us to Lac de Vannes.

## 4.30pm End of the day!

All that's left is to take the road back down to the centre of Châtel and enjoy a cold beer in a local bar.

## 2.15 Bikepark, Les Gets

Time to test ourselves in the bikepark! After the Tour du Golf, the Ecureuils green trail takes us towards Les Gets. These few shapely and fun banked turns are perfect for getting our legs under us. In Les Gets, we take the Chavannes chairlift, which gives us the chance to ride for a while on the XCO World Cup track, which will be the last event before the Olympics. A blue track this time takes us through the forest, back towards Morzine. We cross the village to the Super Morzine cable car. From the Zore chairlift, we can admire the technical prowess of some of the riders on the Avoriaz bike park.

## 8 3.15pm Crêtes de Zore, Avoriaz

We cross the Crêtes de Zore in Avoriaz. Arriving at the route de la Joux Verte, we plunge into a new bike park trail. The Goat, a natural blue trail with a few roots, takes us to Les Lindarets. From here we return to Châtel via the last chairlift of the tour: Chaux Fleurie.

# IN THE SKIN OF PASS'PORTEUR

FRIDAY 28 JUNE 2024

🚲 Bikes loaded on the bike rack, equipment in the panniers, repair kits and a few beers in the boot, everything's ready! The Pass'Portes du Soleil MTB is the annual event for this group of friends from Obernai in Alsace, and they wouldn't miss it for the world. It's off to Châtel! After about 4 hours on the road, Pierre, Antoine and Julien finally saw the mountain. This is it!

As always, we meet at La Godille for a pint of Mont-Blanc to kick off the weekend. Back at the flat, a final check of the bikes and equipment. Everyone has their identity cards and summons. Tomorrow morning we'll have to get up early for another memorable day of mountain biking.

SATURDAY 29 JUNE 2024

06.30am The alarm goes off. We have a quick breakfast, check our equipment one last time and get ready to leave the flat. Pierre realises he's forgotten his gloves... We head for the pack depot, which opens at 07.30am. This gives us a chance to get our legs moving and warm up a bit.

Once the packs and gifts have been collected, everyone puts their number plate on their bike, their wristband on their wrist and slips their pass into their pocket. Now it's off to the start 🚩 at the Super Châtel cable car!

First stop for a portrait at the Photosports spot. 📷 After a few turns on the pedals, the group of three friends crossed the border into Switzerland. Bells, cows, green grass, the red and white flag: there's no doubt about it, this is it! They then discover the new Morgins cable car

09.00am first refreshment stop at Les Crosets. They quench their thirst and set off again quickly. They already know the route well, but they can't get enough of the views of the Dents du Midi from this sector. 🏔️

It's around 10.00am when they arrive in Champéry. It's still a bit early for the raclette, but they need a little break, especially Julien, who has spent more time leaning against the bar than he has on his mountain bike down the slopes of Mont Sainte Odile this year...

After swallowing a few morsels of cheese and charcuterie, the group set off again to reach

a not-to-be-missed point on the route: **Lac Vert**. WOW! A breathtaking landscape and a natural single that we always enjoy. Everyone was starting to get hungry, and just as well, the tartiflette was on its way! All of a sudden, Antoine's chain breaks... He's lucky, he'll be able to stop at the Mavic assistance stand 🛠️ in **Lindarets**. For the tartiflette break, we take our time and enjoy! What's more, the musicians are there to set the mood. 🎵

Once the team has had their refreshments and the bikes are ready to go, we're off again. This afternoon it's bikepark time! We pass through Morzine, Les Gets, then Morzine again. One sharp bend follows another and the sensations are there! Stop off in Morzine for dessert: the famous chocolate fondue 🍫. Then it's on to Avoriaz and the Crêtes de Zore, then back to Les Lindarets. From there, the three friends will be able to get back to their starting station, but they'll have to pedal a bit more. HOP One last stop at the Châtel bike park and they're off again.

As usual, they had a memorable day on the Pass'Portes du Soleil MTB. They were tired, but they were all smiles. The three friends

stopped off at the refreshment point to toast their great adventure

They then took the opportunity to visit the **Mountain Bike Show**. There were lots of beautiful bikes, textiles, accessories and, of course, the official shop! Pierre, whose hands were beginning to ache, found some gloves at **ANIMOZ**. Julien, tired from the day's activities, found comfort at the physiotherapists' stand. As for Antoine, he went to **BOSCH ePowerd** to check out the latest products.

Tomorrow, the three friends will be taking advantage of the day to test some bikes at the show. Antoine spotted a **Lyke** from **HRIBIHE** that caught his eye. The test tracks at Super Châtel will give him the chance to try out this mountain bike in real conditions.

They will then go and discover the various activities at the show specially designed for the **20th anniversary of the Pass'Portes du Soleil MTB** 🎉, including a trip back in time through an exhibition of vintage bikes. Finally, they'll be able to buy a few souvenirs from the official shop before heading home with their heads full of beautiful images.

MORZINE 

Morzine will be the scene of the **Spartan Ultra World Championship & Trifecta Weekend 2024**, from Friday 05 to Sunday 07 July.

Spartan, the world leader in obstacle racing, has established itself as a sporting discipline in its own right, one of the most complete physical activities, a mix of trail running and crossfit.

Since its first edition in 2017, the Spartan Ultra de Morzine has been described by athletes as the most demanding: **a positive vertical drop of almost 4,000 m D+, natural elements and obstacles to overcome**: the climb up a river, the vertiginous ascent of the Pointe de Nyon, the crossing of a high altitude lake, a jump into a waterfall, which are added to the **60 obstacles** that punctuate the **50km** race.

### ↳ Did you know?

The best finish in less than 7 hours, but the majority of participants take on more than 10 hours of intense effort.

### Natural zenitude ... in the vallée d'Abondance

In summer and winter alike, Lalie offers individual or group outings in the most beautiful corners of the Vallée d'Abondance. Walking or running, on marked paths or off the beaten track, the important thing is not performance but the experience of being in contact with nature in the mountains. Taking the time to breathe in, to enter into full awareness with the living natural environment, and perhaps even trying to touch the depths of our own nature, this quest for balance also led

Lalie to practise yoga and to teach it today. She suggests that we open ourselves up to more subtle perceptions, to the emotions and sensations aroused by our immersion in the magical world of the mountains.
